PROFESSIONAL SUMMARY

- ❖ Have experience with different file formats, including TXT, CSV, and XLSX, for data processing, data extraction from an SQL database, and loading into an SQL database.
- ❖ I have an interest and experience in making websites using HTML, CSS, and Python Django, and I have a certification in web development using these skills.
- ❖ I am an undergraduate student eager to explore industry-based skills in the data domain. I have an interest in learning new technologies and enthusiasm for making meaningful contributions.
- ❖ I have experience using Power BI to create interactive dashboards, analyze data trends, and generate valuable insights for informed decision-making.

TECHNICAL SKILLS

Databases : MS SQL Server, MySQL
Languages : **Python**, SQL, PySpark
Operating Systems : Windows

Projects

Client: Solar Industry India Ltd (Ramgarh plant)

- ❖ I have developed a user interface using HTML, CSS, and Python, where users provide daily information. The data is stored in a MySQL database and processed using aggregated functions to compute the required sales amount. The final report is then exported in a CSV file and later shared with Solar Industry Private Limited.
- ❖ I have also designed and developed my personal portfolio using HTML, CSS, and Python, showcasing my skills, projects, and expertise in web development

Technical skills: Python, SQL, DB, Pandas, Power BI , Data Processing, Data Validation

Certification

1. Python For Data processing - Udemy
2. Python and Django Full Stack Web Developer Bootcamp - Udemy

EDUCATION

College/School	Duration	Percentage Obtained
STCET (B. Tech - IT)	2023-2027	7.11 SGPA
Kendriya Vidyalaya Patrattu	2020-2022	73.3%
Kendriya Vidyalaya Patrattu	2010-2020	84.8%
